1) PSC Working Case Docket GW-2020-0036

The Commission opened a working docket on August 15, 2019 to assist Staff in its review of the Commission's rules regarding natural gas safety. Staff is seeking input from interested stakeholders for the purpose of updating the Commission's pipeline safety rules to reflect the most recent U.S. Department of Transportation rule changes. Stakeholders are invited to file comments about the proposed rule revisions and the cost of complying with those rules by September 16, 2019. A copy of the Commission order can be found at the following link:

https://efis.psc.mo.gov/mpsc/commoncomponents/view_itemno_details.asp?caseno=GW-2020-0036&attach_id=2020002110

A copy of the proposed revisions is included as Attachment A in Docket GW-2020-0036. The proposed amendments include adoption of provisions from the federal "Plastic Pipe Rule" as discussed in Staff's December 12, 2018 All Operators Letter. The proposed amendments additionally address the changes in pipeline safety rules necessary to transition the Commission from the Department of Economic Development to the Department of Commerce and Insurance.

If you are unable to access the proposed amendments through EFIS, please notify Staff and we will provide a copy via email.

2) Fall MANGO Meeting October 22, 2019

The date for the MANGO general fall meeting has been set for October 22, 2019 at 10 AM in Jefferson City. The meeting will be on the 4th floor in the Ballroom (Room 450) of the Governor Office Building (GOB).

3) Option to receive All Operators Letter electronically

In an effort to save both paper and postage, Staff has provided an option to send All Operators Letters via email. If you are currently receiving the letters by standard mail and would prefer to receive all operator letters by email, please indicate so to Clinton Foster at Clinton.Foster@psc.mo.gov. Staff will continue sending All Operator Letters by standard mail until such notification.
